Re: Office Action dated Dec. 22, 2004; Notice of Non-Compliant Amendment dated Feb. 24, 2005 US Patent Application 10/634,325 filed 08/05/2003.

Dear Mr. Edgar,

The following is our reply to the Office Action dated 12/22/2004 and Notice of Non-Compliant Amendment dated Feb. 24, 2005.

We appreciated you for all yours arguments and agree with them. Below there are our amendments in Patent Application 10/634,325 filed 08/05/2003 made in accordance with 37 CFR 1.121.

Brief comments to the amendments:

1. *AMENDMENTS TO THE SPECIFICATION.* We would like to delete the paragraph [00011] due to it contains the embedded hyperlink and/or other form of browser-executable code. The magnetic insulation between the stator 14 and the heatsink 4 now is shown on Fig. 2 as position number 21, therefore we would like to make corrections for the corresponding paragraph [00022]. We would like to make corrections in the paragraphs [00023] and [00024] to be commensurate with the terms used in the Claims section. No new matter was entering. We would like also make the correction in numeral of electric drive position in the paragraph [00027] to be commensurate with the specification and drawings.
2. *AMENDMENTS TO THE ABSTRACT.* We would like to make corrections according to the Examiner reminder of the proper language and format for an abstract of the disclosure.
3. *AMENDMENTS TO THE DRAWINGS.* According to the Examiner suggestion we would like to change the numeral "14" with the arrowhead in Figures 1A and 1B to numeral "13" to be commensurate with the specification. The magnetic insulation between the stator 14 and the

heatsink 4 now is shown on Fig. 2 as position number 21, therefore we would like to make corrections for the Fig.2 of the drawings. No new matter was entering. We also made corrections in numbering of sheets of drawings.

4. *AMENDMENTS TO THE CLAIMS*. According to the Examiner notice of the Allowable Subject Matter we would like to rewrite allowable claims in independent form including all of the limitations of the base claim and any intervening claims. Thus, the allowable claim 5 transforms to the independent claim 1 and all other refer to this claim 1. We also make corrections in the claims 6 and 16 due to the informalities noticed by the Examiner.

We would like to ask you for further consideration of our Patent Application.

Please also find the Change of Correspondence Address Form (PTO/SB/122).

Best regards,

A handwritten signature in black ink, appearing to read 'Edward Lopatinsky', with a long horizontal flourish extending to the right.

Edward Lopatinsky
Vice-President
